* Implementation of the New IMO Bookshelf service

We are contacting you because one or more of your vessels have a registered digital Seamans Library (SL) and/or IMO Bookshelf license with Bogerd Martin and an important change is due shortly!

以下关于 Witherby 和 IMO 电子书的新安排请知悉。

Both Witherby and the IMO have announced that they will retiring the current windows based software solutions and transitioning to a browser based hybrid solution - Witherby Connect in accordance with the below schedule. The migration of valid licenses is free of charge.

- The IMO will be phasing out the current software from 1st of May 2022. And Witherby from 31st of August 2022.
- Vessels can't order new Seamanship Library or IMO Bookshelf e-Books from those dates! All the new purchase will be on the new Witherby Connect platform
- User-support to the current windows based software will be available until June 2023

Bogerd Martin does offer a software based solution via our ChartTrack NavReader solution, but IMO and Witherby are not allowing us to transfer the active licenses registered.

Witherby 和 IMO 即将推出新的基于网络的电子书平台 Witherby Connect，现有的电子书软件 Seamans Library/IMO Bookshelf 届时将被取代。现有电子书可免费迁移至新的平台。

- IMO 电子书的转换时间为今年 5 月 1 号开始。Witherby 由 8 月 31 号开始
- 从以上日期开始，新增的电子书只能在新的 Witherby Connect 平台购买并使用
- 对于现有软件 Seamans Library/IMO Bookshelf 的技术支持将持续到 2023 年 6 月

What are benefits and features of migrating to the new hybrid Witherby Connect (WC)?

- *No installation required* Access available via www.witherbyconnect.com
- *Works on low connection speeds*
- *Access on multiple PCs/devices*
- *Use online and offline*
- *Cyber secure.*

新平台 Witherby Connect (WC) 的优势和特点如下：

- 不需要安装软件，登入网址即可使用
- 支持超慢网速
- 可支持多台电子设备
- 在线和离线（缓存模式）均可使用
- 保证网络安全

Please inform your fleet about the migration, and ask the vessels to contact our Digital sales team (digitalsales@bogerdmartin.com) when they are ready to do the migration from 1st May onwards.

We recommend timing this process during office hours to ensure minimal disruption service.

如需转换电子书，请联系我们

**** IMO BOOKSHELF UPDATE**

Since launching the new, browser-based IMO Bookshelf service on 1 May 2022, several thousand new e-reader publications have been purchased and the number of successful migrations from the Windows-based IMO Bookshelf e-reader software to the new IMO Bookshelf service continues to grow apace

As we move forward, please check out the following tips which will assist you in making a smooth transition:

1. Migration can be requested following the purchase of a new IMO publication on or after 1 May 2022.
2. End-user customers should NEVER uninstall their Windows-based IMO Bookshelf software (including the use of the Support – ‘Convert Licence’ option in the software) until they have confirmed that they have full access to all their IMO Publications on the new IMO Bookshelf. **Uninstalling the Windows IMO Bookshelf software is the last item in the migration process. Doing so prematurely can leave vessels without full access to their publications.**
3. Customers with both Witherby and IMO publications on their Windows-based IMO Bookshelf software can migrate all their e-reader publications together by listing ALL READ codes when requesting migration. Customers with existing Witherby Connect accounts will be able to merge their publications to an existing new IMO Bookshelf account:
 - To see only IMO publications, login at www.imobookshelf.org
 - To see all publications, login at: www.witherbyconnect.com
4. **IMPORTANT!** Uninstalling the Windows-based IMO Bookshelf software will remove ALL publications from that installation. It is therefore imperative that all READ codes must be provided on the migration form/spreadsheet so that all associated publications are migrated together.
5. When customers complete their migration form/spreadsheet, they are asked to quote their new IMO Bookshelf login and password. If they don't have these details, which are created when they purchase a new IMO publication, they are not yet ready to migrate.
6. The new IMO Bookshelf login/password look like this:
 - Login: **IMOCC12345**
 - Password: **READ-ABCD-1234-1Z81-2ABC**

These details are generated automatically by the VP website and are displayed in their customer record, together with the URL to access the IMO Bookshelf service. Please

remember to send these login details to your customers!

7. **NB:** IMO e-reader publications purchased from 1 May 2022 cannot be activated in customers' existing Windows-based IMO Bookshelf software. These new publications will only be available using the new, browser-based IMO Bookshelf service.

8. Further information on processes and procedures, including migration forms/spreadsheets, are available on the dedicated distributor IMO Bookshelf web page. If you have questions or are unsure about any issue related to the new IMO Bookshelf, please email sales@imo.org for assistance.

*** AVCS and AIO exchange sets now have the same README.TXT file

Following a review of UKHO processes, we have decided to combine the AVCS and AIO README file

so that there will be just one README file for both AIO and AVCS datasets.

From this week, WK19/22, AIO exchange sets will include the AVCS README file, which includes the

content from the AIO README file. The updated AVCS README.txt file is available on the ADMIRALTY

Website under the AVCS Support Tab.

**** Intention to retire AVCS OUS (EOUS)

AVCSOUS will be retired later in 2023

In e-Newsletter 706 we announced our intention to retire the AVCS Online Updating Service (AVCSOUS) in June 2023. This is because it relies on outdated software and cannot be supported by continual delivery in the ADMIRALTY Digital Delivery Service (ADDS).

Following on from feedback that we have received from some Distributors, we have extended this to December 2023.

The retirement of the AVCS data download facility in Fleet Manager has also been extended to December 2023 because ADDS Increment 3 is not yet complete.

We intend to use this time to develop additional functionality within the Exchange Set Service (ESS) User Interface (UI) that will allow you to request data that has been released since a specific date.

We will provide further updates when the ESS UI development is completed

***** Continue to provide a paper chart service until at least 2030.

In July last year, we announced our intention to withdraw from the production of paper charts. As part of this announcement, we made a firm commitment to consult closely and more widely with our partners and to listen to their feedback stating from the outset that we would '*leave no one behind*'. These more detailed conversations have highlighted several important transnational and regulatory factors that will need further consideration. I am grateful to all Distributors who have engaged in this process and provided us with invaluable feedback from your customers, our end users.

It is now clear that more time is required to develop a regulatory framework with the IMO and to address the needs

Our intention to withdraw from paper chart production remains, and we will continue to withdraw elements of our paper chart portfolio over the coming period, on a case-by-case basis. However, we will be maintaining comprehensive Standard Nautical Chart coverage, as we increase our focus on developing the next generation of digital navigation products and services.

|||||

***** Withdrawing Support of ADP V18

We are withdrawing support of ADP V18 from 1 July 2023

Existing users can install the new software over the current version. Start-Up and Activation Keys will continue to work with the new version.

*****JP prefixed paper charts to be withdrawn from 2024

Smaller scale ADMIRALTY charts of Japanese waters without the JP pre-fix will not be withdrawn.
